

School Council

Our school council provides opportunity for freedom of speech, promoting the 'student voice' and provides a safe environment to share and constructively question ideas. We promote positive rapport with all staff, students and parents, contributing to an internal dialogue that we hope will continue to improve our school's effectiveness and ethos.

Meetings are held once a month to discuss key agendas and issues within the school and our community. Councillors will problem solve, debate and analyse; developing critical skills to communicate effectively with a breadth of students and staff. Councillors will consider the quality of learning, resources and school events, conducting investigations into how we can further contribute to the culture of our school, becoming more resourceful, resilient and respectful.

Councillors' responsibilities include: collecting ideas from peers, making suggestions that will further benefit our school, working together to solve problems, providing a network of trust between students and staff, making further improvements to school life and so much more!

At Acre Hall we value the views and ideas of all our students and staff. If you have any suggestions about how we could improve or add to our school, please share these with your class councillors. Remember - small changes can lead to big things!
