Note from Subject Leader

I am Miss Breslin and I am the subject leader for PSHE and Citizenship. Over the coming year I will be visiting classes to look at the teaching and learning in PSHE and Citizenship. I will be looking at how emotional wellbeing is positively promoted around the school and continue to support the implementation of 'Growth Mindset' teaching and learning.

I might talk to children about what they think about PSHE and Citizenship, I will look at work books and photographs of learning in PSHE and Citizenship. I will be talking to staff about activities we can plan in school to help your child with their learning in PSHE.

In some subjects the topics can be quite extensive so we often focus on only certain subjects that half term. The following half term the remaining subjects will be covered in detail. It is generally only History, Geography, Art/Design and Design Technology that are studied in this way. PSHCE is a Core subjects along with English, Maths, Science, PE, and Computing so will be covered every half term.

Topics may alter slightly depending on the learning needs of the class – please see class half term planners for more details.

Please contact me via the school office – telephone 0161 748 4356 or email admin@acrehall.trafford.sch.uk - if you have any resources or ideas that you feel will be useful to us.
